SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty years at an annual rental of \$1 an acre, not more than 500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the District in which the rights applied for are situated.

In every section the land must be described by sections, or legal subdivisions of sections, and the location of the tract applied for shall be stated.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the net production of the mine at the rate of five cents per ton.

Every lease of coal mining rights which are not being operated shall furnish the district Agent of Dominion Lands with a sworn statement to that effect at least once in each year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. Cory,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS

Any area numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 3 and 10, not reserved, may be homesteaded by any person who is a Canadian citizen or a naturalized citizen of Canada, or the agent of one-quarter section of 160 acres, or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:
(1) At least six months residence upon and cultivation of the land in each year of the three years.
(2) If the father (or the mother, if the father is deceased) of the homesteader resides upon a section of the land, the land may be homesteaded as to the portion which he occupies, and the portion which he occupies may be homesteaded by him, and the portion which he occupies may be homesteaded by him, and the portion which he occupies may be homesteaded by him.

W. W. Cory,
Deputy Minister of the Interior.

MAY VOID AGREEMENT

POSSIBILITY THAT COAL STRIKE MAY BE RESOLVED.

GRANT RULING CAUSE

Frank Fur Company in Arbitration of Hillcrest Pillar Differential and May Refuse to Accept—Other Companies May Close to Enforce Compliance.

There is a possibility that the new agreement between the Western Coal Operators Association and the United Mine Workers of America for this district may be voided and the terms just opened be closed again.

The difficulty arises out of the Hillcrest pillar differential controversy. The new agreement provided that the Hillcrest differential should be referred to a joint arbitration committee, the decision to be binding on both parties. That was done and the men insisted on Chairman H. R. Arant of the conciliation board being chosen chairman of the joint arbitration committee. The operators agreed and the case was duly heard at Macleod. Last Thursday Chairman Grant rendered his decision upholding the contention of the Hillcrest company and fixing the price for pillar work at 40 cents, a reduction of ten cents. The men have refused to accept the award and the Hillcrest mine is still closed.

Inasmuch as the Hillcrest company is a member of the operators association and that the agreement was signed in its behalf by that association it would appear that the other companies holding membership in the association will be bound to support the Hillcrest member and as Managing Director Hill of the Hillcrest company has expressed a determination to demand of the association that all its members uphold him by closing their mines, there seems a strong probability that another general shut down will ensue. Following is Chairman Grant's decision.

"During the sitting of the conciliation board I examined the mine at Hillcrest and being somewhat familiar with mining it seemed to me that the mine was in remarkably good condition, after two months idleness. It ought to be so far as mines go, a most desirable one in which to work. The evidence shows that there have been no fatal accidents in it. In his evidence before the committee, Mr. Hill has shown that up to the present owing to conditions of cost of mining he has not had adequate returns from his operations. These profits he expected from his pillars, but when he experimented in December he found that pillar coal cost more than room coal. Before the committee he made it plain that he did not desire to grind labor and he made an appeal for justice so that he, as well as his employees, might have a just return for his outlay. We must remember that money is put in to coal mines for profits and unless profits are the outcome of operations money will seek some other channel, in which it may adequately get its increase. When we view outside conditions at Hillcrest we find that it requires a large outlay to put the coal in the cars and on the C. P. R. track. This acts as a handicap in competition in open market with other mines in the same competitive field and these embrace not only local mines but also eastern ones that enter into competition in the western market with our local mines. I believe the employees if they look at the matter squarely and justly will see that they ought to help the Hillcrest company to overcome the handicap they are under in the costly handling of their coal after it is mined.

"I believe they can give a reduction on the pillars without materially decreasing their earnings and at least they will have the satisfaction of knowing they will be serving an industry that has been good to them in the past, and which will in the future, even under a reduction, give them very satisfactory returns for their labor.

"Taking these things into consideration, and after carefully weighing the interests of both parties my decision is that the price of pillar work at Hillcrest mines should be 40 cents per ton for mining coal and that the price should be paid for at the rate of 4 cents per lineal foot."

A district board meeting was held in Frank Monday when it was decided to refer the matter to the international organization for a ruling as to whether the men are bound to accept the finding and go to work. A meeting of the Hillcrest local was then held Tuesday and the union voted to remain out until the decision of the international is forthcoming. Should that decision be unfavorable, a referendum of the whole district will be taken. Inasmuch as the men voted almost unanimously to accept the agreement and their officers signed it, binding themselves to abide by Chairman Grant's decision, there is little doubt as to the position President Lewis and the international board will take and it may therefore be taken for granted that the matter will go to a referendum. And inasmuch as it is well known that the great majority of the men want to work and in view of the great injury their order would suffer through openly violating an agreement before being in operation a week, there seems a strong probability that such a referendum would result in upholding the Grant decision. It is therefore just possible that the other operators may prevail upon the Hillcrest company to await the final decision of the men before demanding the closing of the other mines in its support. It is regarded as the only course that will prevent another protracted shut down.

The men justify their course in repudiating the Grant decision on the ground that the Hillcrest management did not open the mine aside from the pillars when the new agreement went into effect and did the other companies but remained closed pending the decision on the differential question and while the arbitration was in progress declared that the mine would not be opened at all unless the Hillcrest company got what the management considered justice. They hold that it was obvious the company did not intend to abide by the decision of the arbitration committee unless it was favorable and that for that reason there is no reason why they should not take the same course.

It is interesting to speculate as to what aspect the Lougheux set will see about a shut down course under such peculiar circumstances.

BLAIRMORE NEWS

Some time ago some evil minded individual stole the sign of the new barber shop recently established here. It was replaced with another and Monday night last an attempt was made to steal or destroy that but the culprit was surprised and only got away with a whole skin by taking to his heels.

Contractors Frayer & Sinclair are enlarging the Rosse business building on Victoria street for the accommodation of a restaurant.

The Pelletier sub-division can hardly be recognized for the number of new buildings that now nearly cover it.

P. E. Hinds is having two cottages built on the bench east of the Pelletier brick works.

It has been suggested as a good idea that the people of The Pass raise by subscription sufficient funds to provide a bell for the new Baptist church to be used for all burials in the Blairmore cemetery.

The dedication of the new Baptist church will take place Sunday the 25th when special services for the occasion will be held. The Rev. C. J. McLaughlin, superintendent of Baptist missions will preach the dedicatory service at 11 in the morning. He will organize the new Sunday school at 3 in the afternoon, and will preach again in the evening. Monday evening a social and concert will be given in the church at which some very fine music and refreshments will be provided. An admission fee will be charged to go to the building fund.

their labor.

"Taking these things into consideration, and after carefully weighing the interests of both parties my decision is that the price of pillar work at Hillcrest mines should be 40 cents per ton for mining coal and that the price should be paid for at the rate of 4 cents per lineal foot."

A district board meeting was held in Frank Monday when it was decided to refer the matter to the international organization for a ruling as to whether the men are bound to accept the finding and go to work. A meeting of the Hillcrest local was then held Tuesday and the union voted to remain out until the decision of the international is forthcoming. Should that decision be unfavorable, a referendum of the whole district will be taken. Inasmuch as the men voted almost unanimously to accept the agreement and their officers signed it, binding themselves to abide by Chairman Grant's decision, there is little doubt as to the position President Lewis and the international board will take and it may therefore be taken for granted that the matter will go to a referendum. And inasmuch as it is well known that the great majority of the men want to work and in view of the great injury their order would suffer through openly violating an agreement before being in operation a week, there seems a strong probability that such a referendum would result in upholding the Grant decision. It is therefore just possible that the other operators may prevail upon the Hillcrest company to await the final decision of the men before demanding the closing of the other mines in its support. It is regarded as the only course that will prevent another protracted shut down.

The men justify their course in repudiating the Grant decision on the ground that the Hillcrest management did not open the mine aside from the pillars when the new agreement went into effect and did the other companies but remained closed pending the decision on the differential question and while the arbitration was in progress declared that the mine would not be opened at all unless the Hillcrest company got what the management considered justice. They hold that it was obvious the company did not intend to abide by the decision of the arbitration committee unless it was favorable and that for that reason there is no reason why they should not take the same course.

It is interesting to speculate as to what aspect the Lougheux set will see about a shut down course under such peculiar circumstances.

MAKING MANY IMPROVEMENTS

CANADIAN-AMERICAN PLANS CON-TEMPLATE BIG FUTURE.

DIRECTORATE COMING

President Liegeant and others expected last of this month—Many improvements made and in progress—Plans insure Frank's future.

Many improvements are being made these days in connection with the affairs of the Canadian-American company. These and extensive plans for further improvements and development constitute an insurance that Frank's prospects for the future are of the brightest.

At this time, a new wash house at the shaft has just been completed, affording ample and comfortable accommodations for the men, being provided with lockers, hot and cold water and other necessities. A new lamp house is also about completed which will go into commission today. The building is metal lined to insure against fire and it has a cellar protected with metal and a metal floor, in which to store the gasoline. A revolving shelf rack in the center holds the safety lamps while a water bench is alongside and the operative stands between the bench and the revolving shelves and trims and fills the lamps with the least possible inconvenience and loss of time.

The work under contract of building the track extension to the hoist is well under way. It provides for empty tracks on either side of the galleys frame on which the empties after being dumped, run back to the west of the hoist and are there stored ready to be lowered.

The plans are prepared for the track to connect the shaft with the C. P. R. coal pockets and will be forwarded at once for approval. It is expected that construction will begin in about three weeks. When completed, as hitherto stated, the coal pockets will be supplied direct from the shaft by the mine cars, running across to the pockets and being dumped and gravitating back on the empty track, thus working a big saving to the railroad company. The railroad company will then increase its storage capacity at the pockets to 150 tons. As the railroad company uses 125 tons a day at the pockets the advantage it will gain will be readily noted.

Another improvement soon to be inaugurated will be enlarging of the power house, the ground for which is now being cleared and prepared. The present building will be extended about 150 feet to the south and in the new portion will be located another battery of boilers, the electric light and power plant and air compressor plant. An engine and a new dynamo will be put in from which light for the town will be supplied and the present light plant will then be moved up and the company's power plant will all be in one building and the old tipples and works will be operated by electrical power.

Still another improvement to be commenced during the season, will be the construction of a battery of fifty coke ovens. These will be located directly west of the shaft and the foundations will be laid this year. The number will later be increased to 300.

Commencing Monday the output at the shaft reached 200 tons a day. This will be steadily maintained and in August the output will reach the 300 ton mark. General Manager Muller is confident he will produce 600 tons from the shaft by the first of next year.

It is announced that President O. L. Liegeant, Fleming Fontaine, director; S. W. Gibe, director and F. Colomer, director and consulting engineer, will arrive from France the last of month and it is expected that at that time plans for enlargements vastly greater and more important than any yet announced will be made public.

Obviously, Frank's prospects, as affected by the present ownership of the Canadian-American, are as good as the most ambitious could wish.

THURSDAY, JULY 18 1909.

"JOURNALISM REVEALED"

The Michel Reporter in his last issue publishes the following:

This is Dominion day, and as there are no celebrations in the Pass, the district will be pretty well depopulated, as a great number of people contemplate taking in the big game at Plouher or some other near by celebration.—Frank Paper.

"Of course we may be mistaken, but we thought that here and Fernie were included in The Pass, and these towns gave big celebrations on Dominion day, but perhaps our Frank column does not consider us in The Pass."

In the language of the celebrated comedian, Lew Fields: "Go on white man, how your ignorance have been neglected."

The Reporter is quite right when it suggests that "perhaps our Frank column does not consider" Michel and Fernie in The Pass and if the editor of the Reporter would familiarize himself with the facts he would not.

There is what is known as the Crows Nest Pass, the eastern gateway to which is located exactly at Frank or to be more exact, at the Sanitarium hotel which is at the western edge of Frank where two mountains come so close together that there is but a narrow gateway between; they are not more than a quarter of a mile apart. This is technically the pass and from long usage that portion of what is known as the Crows Nest Pass from the summit of the main range east to the foothills has come to be known as The Pass, a local designation referring solely to the Alberta portion of the Crows Nest Pass. And the term is not only the local designation of this district but has come to be used by all the important newspapers of the country when referring to that portion of the Crows Nest Pass lying in Alberta. Of course Michel and Fernie are in the Crows Nest Pass but they are not in The Pass as most people have come to understand the meaning of that term.

Of course The Frank Paper had no intention of alighting the Michel or Fernie celebrations and the editor of the Reporter must have detected the fact had he read the paragraph more carefully since it is clear enough that the expression, The Pass, is used in a purely local sense. The fact is also apparent from the use of the expression: "other nearby celebrations". We do not know of any other nearby celebrations than those held at Michel and Fernie.

It might not be amiss for the editor of the Reporter to travel a little through the field and familiarize himself with local nomenclature.

The July Home Journal

There is such an abundance of good things in the July Home Journal that it is difficult to say just what the outstanding features are.

"The Dominion of Today" tells of the wonderful growth of Canada from 1867 to 1909. The new serial story "The Mystery of Barry Ingram" by Annie S. Swan, starts in this number. The opening chapters give promise of being one of the best stories ever offered to Canadian readers.

"The Awakening" is an excellent short story of a dream that came true. Many girls have ambition to become writers. Their troubles and perplexities are told in brief in "The Girl Who Wants to Write."

Women are coming to the front as explorers and a short sketch of the travels of Miss Agnes Dent Cameron in Northern Canada is very enterprising. "Wanted, a beauty combine," is a splendid article advocating the retaining of the natural beauty of our towns and villages. It is excellently illustrated with photo-

graphs. The whole issue is profusely illustrated. The cover is an excellent reproduction in colors of "The Violet Lady" by Canada's foremost artist, W. Goodie, who also contributed the "Summer Girl" which is printed in colors inside. This magazine has improved so much recently that many leading Canadian women are reading the Home Journal in preference to foreign publications.

C.P.R. EXPERIMENTING WITH TELEPHONES

Inside two weeks, the C.P.R. on the division between Swift Current and Medicine Hat, will be despatching trains by telephone instead of by telegraph. This is an innovation in the middle west though the company has been using the telephone for despatching on the Winnipeg-Brandon section and on the division east of Fort William.

This will not mean the cutting down of the regular telegraphing staff, as operators will be required for general railway work.

The use of the telephone for despatching was one of the main subjects at the convention at Detroit of the railway telegraph superintendent of America from which J. McMillan, superintendent of C. P. R. telegraphs at Calgary has just returned. Mr. McMillan states that telephone despatching, according to the reports presented at the convention, has been tried out on many important American railways and so satisfactory have been the results that practically all the big lines are adopting the scheme and its general use will be only the matter of a short time.

Trains will carry telephone sets and in case of accident or delay it will be an easy matter to get into communication with the nearest stations. In time it is expected that every railway on the continent will be despatched by telegraph.—Daily News, Calgary.

NOTED PIONEER GONE

Calgary, July 9—James Reilly three times mayor of Calgary, one of its most valued citizens and widely known throughout all Western Canada for 24 years, is dead, aged 74 years. The death occurred at the residence of his wife in Victoria, B.C. This news reached his nephew, Alderman C. B. Reilly, here yesterday. It is doubtful if there lived in Western Canada any person with wider acquaintance and more generally liked than James Reilly. He had always taken a very active part in all manner of civic affairs as well as having been mayor of the town on three different occasions. He was also active in general political affairs. He was the first to take up the question of provincial autonomy and some twelve years ago stamped the country in the effort to arouse the people on that question.

Frank News in Brief

Prof. Huston left yesterday for his fruit ranch of Kootenay lake.

Alex Smith and wife, former residents of Frank, accompanied by J. M. Scott and wife of Rochester, N.Y. visited Frank Tuesday.

It is reported that Harvey Morphy will shortly open a branch store at Blairmore in the building being fitted for a store by D. N. Drain.

The Frank miners union has moved from the old quarters over the Somerton building to the new hall over the Frank Wine and Spirit company's store.

Mrs. Wm. Birmingham and children of Kingston, Ont., are visiting Mrs. Birmingham's parents, Mr. and Mrs. Beach and sister, Mrs. Malcolmson.

A. V. Lang returned last night from a trip to the coast during which he visited the Seattle exposition and other points. He states that the fair is a great success.

Wm. Petak has sold his residence property on the north side to J. W. Graham and has purchased the Donald Frill homestead sold by the Trust and Guarantee company as public administrator and executor of the Frill estate.

The Galbraith Coal company of Lundbreck has started work on the sinking of a slope on No. 2 seam with a view to greatly increasing the output of the mine. The coal being taken out of the new working is of a very fine quality.

Peter Mangine, on a charge of theft for stealing groceries from Mrs. Rosse of Blairmore, was fined \$5 and costs by Justices Martin and Disney in police court. Mike Hradowsky was fined similarly for an assault on M. Crasnyco.

DENTISTRY—Dr. Bruce, head office, Macleod, honor graduate of Trinity University, Toronto and Royal College of Dental Surgeons of Ontario, will make his next regular visit to Frank at Imperial hotel on July 23rd and 24th. Please call and make appointments early.

In the case of one Grafton who was before Justice Martin Friday for turning horses into the cemetery at Blairmore, it developed that the cemetery is not properly fenced but that a government roadway is fenced off. Technically therefore, no offense was proven but as it appeared obvious that the action of Grafton was the result of spite work the costs were assessed against the defendant.

J. G. Short, secretary of the Galbraith Coal company of Lundbreck, stopped off in Frank Saturday enroute home from a trip to Spokane.

George Knowles has opened a blacksmith shop at Bellevue. He guarantees first class work and satisfaction in every department.

J. H. McRae of Montreal, representing the Gillette safety razor company was in town Friday and Saturday.

A competent superintendent was in at once for a large operating mine.

Apply care Union Bank. F. N. Fowler of Red Deer is arranging to take over the barber shop formerly conducted by J. Fushong who left town during the week.

Master Mechanic Bion of the coal company and family moved this week into the cottage formerly occupied by the company as an office.

Mrs. George Jackson and children of Blairmore left Tuesday for Toronto where Mrs. Jackson will consult specialists in paralytic afflictions in behalf of her youngest daughter.

John Miller who has charge of the street improvement work for the village is this week grading the Blairmore road between the first bridge and the Sanitarium.

Quite a changing about in mine officials is about to take place. John Powell, formerly mine manager for the International company at Coleman, transfers his allegiance to the McGillivray Creek company where he takes the superintendency. Charles Emmerson, superintendent for the West Canadian Collieries at Bellevue, goes to Coleman to take the superintendency of the International company and Raoul Green, assistant manager for the West Canadian goes to Bellevue to succeed Mr. Emmerson.

The settling of the track about half a mile east of the Middle Fork bridge was the cause of a wreck of a freight train Tuesday in which Engineer Johns was seriously injured and ten loaded cars were ditched and badly smashed up. When the engine struck the defective spot it left the rails and turned turtle. All the cars of the train except the caboose were ditched. Engineer Johns was picked up unconscious and taken to Macleod. The eastbound regular passenger and flyer were held here until 6 o'clock yesterday morning when the track was reported cleared.

It is reported that the mine of the Breckenridge & Lund company at Lundbreck is under option to a syndicate of men who contemplate reorganizing the concern and reopening the mine.

Under the direction of "Jack" Robertson the trail to the South Fork has been put into fine condition. Creeks and wet spots have all been bridged and the trail cut out, rendering a horse back trip to the South Fork easy and pleasant. Alex Goyette raised the necessary money by subscription.

George Jackson was in from the the South Fork the last of the week.

Miss Helen A. Coleman, formerly nurse at Dr. Malcolmson's hospital and William C. Lloyd, the well known North Fork rancher, were married Monday at Medicine Hat. Miss Coleman is well and favorably known in Frank while Mr. Lloyd is not only widely known throughout this section of Alberta but is deservedly popular. It will be a legion of friends and acquaintances who will extend all good wishes for wedded prosperity and happiness.

FRANK GOT TRIMMED

The Frank football team got trimmed by Coal Creek at that place Saturday by a score of 2-0. The game was even till two thirds finished with no score. Then it rained and play had to wait but the team got wet and had to go back in their wet suits while Coal Creek donned dry togs. Thereafter the Frank boys

seemed to play just as they must have felt and—well they got skinned.

The same day Michel defeated Homer 4-0.

Following is the standing of the teams to date:

Teams	Won	Lost	Draw	Points
Michel	7	1	1	15
Fernie	3	1	5	11
Coal Creek	4	0	2	10
Frank	3	2	2	8
Bellevue	2	5	1	5
Coleman	2	4	1	5
Homer	0	5	0	0

Miners and Shippers of Bituminous coal.

The Company carries three grades of coal, screened, mine run and slack. The screened is unequaled for domestic or furnace use. We recommend the mine run and slack for steam purposes, and can guarantee it to be clean and give absolute satisfaction.

NO CLINKER

We supply rough lumber, slabs and kindling wood to residents of Frank. Slabs sawed to stove lengths delivered at \$1.50 a load.
